

JAWAHARLAL NEHRU UNIVERSITY

Advisory

13 January 2020

It has come to notice of the Administration that two JNUTA officer bearers have announced a “non-cooperation” plan. According to these office bearers, “The JNUTA GBM Resolution on the Non-Cooperation Action Plan implies that we refuse to comply with the two Circulars issued on 10th January 2020 which asked teachers to be present in their offices for registration, to start classes and other relevant academic activities from 13th January 2020 and to upload time-tables for the same. The JNUTA appeals to all colleagues to implement fully these decisions of the General Body...”

The above call for “non-cooperation” not only goes against the efforts of the Administration for restoration of normalcy in the campus and resumption of academic activities but also reflects the intention of JNUTA to disrupt normal functioning of the university.

Thousands of students have already registered for the 2020 Winter Semester and others are in the process of doing their registration. Students of JNU have their fundamental right to attend classes and get advice from their respective supervisors and fulfil academic requirements. “Non-cooperation” call, as given above, also violates the service contracts of the teachers.

All faculty members are thus advised to resume their classes and other academic activities in the interests of the student community.
